

The Quiet Du'a

**Zayd made du'a quietly
before iftar.**

He didn't tell anyone.

**A few days later, his du'a
came true.**

**Zayd smiled. Allah heard
him.**

**Allah hears even silent
du'as.**

A stylized illustration of a night sky. In the upper center, a large, glowing yellow crescent moon hangs above a cluster of small white stars. Several larger, yellow five-pointed stars are suspended by thin white lines from the top edge of the frame. Below the stars, a layer of dark blue and purple clouds is visible. In the lower half of the image, a layer of orange and yellow clouds is studded with numerous small, white, four-pointed starburst shapes, suggesting falling stars or a comet's trail.

**What du'a will you whisper
today?**
